

## What is Green Community?

Green Community is a European Union supported project designed to engage communities to adopt practices that reduce the human impact on the environment, especially in areas where humans live in close proximity.

## What are the aims of Green Community?

Green Community was developed to benefit society, and:

- to encourage awareness of “green community”
- to reduce pollution in the human environment by recycling waste
- to promote understanding of global warming and climate change and their possible effects
- to encourage increased self-sufficiency

## Who can benefit from Green Community?

- Home-owning citizens
- Allotment owners
- Teachers and trainers
- Ethnic groups
- Local government
- Vulnerable, disabled people
- Interested companies and individuals

## Green Community Mission

Working together for a greener and healthier community

## Green Community plans
